

# GTcube

The GTcube true cube case measures approx. 230x230x230mm.  
Built to feature various "skins" in 3mm aluminium (for all sides).  
Highly optimized for the Commell LV-672 mini-itx s775 motherboard.  
High power full-size ATX powersupply with low-noise 120mm fan.  
Sophisticated cube cooling (including CPU) by the PSU fan, controlled by smartfan technique through BIOS / Winbond.  
WLAN 802.11b/g with high gain external antenna  
Raid 0/1/0+1 with 2 SATA harddisks in bottom of case,  
Full-size pci-express x16 graphics card, optimized case for fanless cooling.
